

### Product Features

- ⊙ Automatic CD/DVD Duplication & Printing
- ⊙ Fast, Durable Thermal Printing
- ⊙ Large 220 to 1100 Disc Capacity
- ⊙ Office & Production Solutions
- ⊙ High Speed – CD or DVD writers
- ⊙ Unattended, Standalone Operation or Networked
- ⊙ Easy Operation

### Professional Duplication & Printing

The CopyDisc Thermal series combines the proven technology of the Verity Systems range of CopyDisc automatic duplicators with the industries best thermal CD and DVD printers, providing the perfect solution to those wanting to produce CD-Rs & DVD±Rs to the highest standard that can equal the quality of the major professional CD/DVD producers.

Available with 4, 7 or 8 drives, all can be fitted with 52x CD-R Plextor or 8x DVD±R Pioneer drives offering high-speed duplication of up to 220 disc per session for the CopyDisc 4P and 7P. For larger capacities, the CopyDisc 8P can accommodate 1100 discs on its revolving turntable – suitable for even the most demanding of duplicating professionals.

All CopyDisc duplicators and printers are easy to use, with all command operations being entered via the control panel.

### Thermal Printing

Two thermal printers are available: the **Prism Plus!** and the **PowerPro II**.

Thermal transfer technology works by conveying solid wax from a coated ribbon onto a disc's surface through a combination of heat and pressure. This allows the transfer of monochrome images onto low-cost, lacquer surface CD-R discs instead of the specially coated media required to receive ink for the inkjet process.

Thermal transfer inks are highly scratch- and smudge-resistant and are completely waterproof.

Cost per copy is also very affordable when compared to other printing methods. The low cost thermal ribbons can produce over 2000 discs.

### Standalone or Networked

The CopyDisc Thermal series are standalone systems requiring no PC connection. However, all CopyDiscs are also network compatible and can be incorporated into an existing network via our duplication management software – TrueNET 2. Multiple users can send images to any CopyDisc on their network remotely from their PCs.

### Warranty

12 months back to base, all parts and labour included. Extended warranties also available.

### Options

TrueNET2 Networking Software (compatible with Windows 2000 & XP)

PowerPro II

Prism Plus!

Colourful & Durable
