

## Automatic Security Degausser

The SV90 is able to perform automatic erasure of high-density magnetic media achieved by applying a highly focused magnetic field created by Verity Systems exclusive multi-axis, 'pole tip' design. The tapes or cassettes are placed in the draw compartment and rotated within the powerful 7000 Gauss field ensuring uniform and complete erasure. The SV90 can cope with a range of media including tapes of up to 16 inches diameter. Up to fifty reels or two hundred cassettes can be efficiently and quietly erased per hour, the SV90 operates continuously and is quick, cool and efficient. The SV90 meets the SEAP (Security Equipment Assessment Panel) specifications and is suitable for the secure erasure and destruction of data stored on magnetic media up to "Top Secret" status.

### Features:

- ★ Fully Automatic
- ★ Continuous Duty
- ★ Erases Reels and Cassettes
- ★ Meets SEAP Specifications

### Specification

#### **SECURITY APPROVED:**

The SV90 has been approved by the UK Government and meets the specified requirements of SEAP (Security Equipment Assessment Panel) for the secure erasure and destruction of information and data stored on magnetic media up to "Top Secret" status.

#### **MEDIA ERASED:**

**Reels:** ½" & 1" NAB (16" max), Adapters required for ¼" NAB, ½" IBM & ¼" DIN, for 2" tapes only special model SV90/2 is required;  
**Cassettes:** Carriages available for Beta SP, digital Betacam, MII, VHS, RDATE 8mm, Umatic, Betacam 3480, TK50, 75, 85, DC600, DC1000

#### **THROUGHPUT:**

500 Reels; 200 Beta cassettes per hour

#### **DUTY CYCLE:**

Continuous

#### **POWER SUPPLY:**

220-240V 50Hz, 208-220V 60Hz,  
 Current 9amps typ

#### **DIMENSIONS:**

Height: 285mm (11.1") Width: 520mm (20.5")  
 Depth: 689mm (27")

#### **WEIGHT:**

35kg (77lbs)

#### **NATO NUMBERS:**

5836-99-564-2851 (240v 50Hz)  
 7035-99-818-0435 (220v 50Hz)  
 5836-99-383-4568 (220v 60Hz)  
 5836-99-075-8055 (208v 60Hz)
