

High Energy Security Degausser

If you require to erase a range of magnetic media including high density metal tapes and cassettes, then the Verity Systems SV91M is up to the job. The SV91M is quick too, taking as little as ten seconds to completely erase a cassette. It's simple to use and provides a thoroughly effective and low cost means of degaussing DLT, DAT and other high coercivity tape. It is also suitable for erasing PC hard drives for security purposes and the SV91M is particularly recommended for erasing defective or damaged drives where other types of erasing may not be effective.

The SV91M is a compact, low noise, manually operated unit that seats neatly on a table top and has been designed very much with security operations in mind, as its powerful degaussing fields can erase even metal particle tape. The SV91M is ideal for the security conscious, low volume operator who wants to have a professional, low budget solution to eliminate magnetic media security risks.

Features:

- ? Simple to operate
- ? Handles all magnetic media formats
- ? Compact table top design
- ? Meets SEAP specifications

AGENT:

Specification

SECURITY APPROVED:

The SV91M has been approved by the UK Government and meets the specified requirements of SEAP (Security Equipment Assessment Panel) for the secure erasure and destruction of information and data stored on magnetic media up to **TOP SECRET** level.

Meets German security approval DIN33 858

MEDIA ERASED:

Cassettes: all oxide and metal particle
Reels: formats up to 16" dia. Including 2"
Pancakes: up to 16" dia.
Cartridges: all computer back up cartridges
Other: All diskettes also QIC –
DC600, 2000, TK50, TK70, TK85,
3480, 3490E, 3590E, 4mm, 8mm,
Exabyte, Travan, 3 1/2" & 5 1/4"
Hard Drives.

THROUGHPUT:

180 VHS cassettes per hour

POWER SUPPLY:

220-240v 50Hz; 115v 60 Hz; Current 9amps typ

DIMENSIONS:

Height: 150mm (6"), Width: 420mm (16.5"),
Length: 480mm (19") Weight: 27kgs (59.4lbs)

NATO NUMBERS:

5836-99-591-3345 (50Hz)
5836-99-500-5299 (60Hz)
