

MIDIGAUSSER

Designed to provide a cost-effective facility to erase a variety of common video and data magnetic media formats, the V94 will appeal to anyone in the video industry who requires a low cost, compact eraser to handle small to medium quantities of cassettes, cartridges or tapes.

Operation is simple and safe and is achieved by sliding cassettes, using the guide bar, or rotating tape reels over the degausser's surface. This provides effective erasure of any previously recorded tracks. The V94 has an automatic thermally controlled cooling fan, allowing the machine to be used to erase large batches of media. Additional electrical safety is provided by a mains supply fuse.

The V94 will be of interest to operators in the duplicating, production, voice logging and instrumentation industries who will benefit from the increase in quality and efficiency that the V94 Midigausser will bring.

Specifications

V94 MIDIGAUSSER

- ◆ **Media Erased:** Cassettes:
VHS , S-VHS, Beta, U-Matic
Cartridges:
Data DC 300,600,2000
3480/3490, TK50/TK70
4 & 8mm & DAT, DLT
Floppy Disks
- ◆ **Throughput:** S-VHS Cassettes
180 per hour
- ◆ **Operational Voltages:** 220/240V 50Hz
115/208v 60Hz
- ◆ **Erasure:** -75dB
- ◆ **Current Rating:** 1.8amps typ (50Hz)
- ◆ **Duty Cycle:** Initial run 12 mins with 40%
duty cycle first hour
dependent on ambient
temperature
- ◆ **Dimensions:** Height: 4.5" (114mm)
Width: 13.9" (353mm)
Depth: 14.5" (363mm)
- ◆ **Net Weight:** 23lbs (10.5kgs)

- Features**
- ☆ Erases S-VHS, VHS, Beta, U-Matic
 - ☆ Light weight- portable
 - ☆ Erases up to 850 Oe media
 - ☆ Easy dual pass operation
 - ☆ Low cost - rugged - efficient
 - ☆ Suitable for 4 & 8mm & DAT
