

## High Speed Conveyor Degausser

The model V95 is unique because it was designed by blending state of the art advanced "Magnetic Degaussing" and "Production" technologies into the highest performance, most cost efficient and maintenance free degausser available anywhere.

The V95 has 2 powerful Degaussing coils in a "V" shaped configuration specifically designed to create magnetic fields capable of erasing to a -80dB noise level even on 850 Oe S-VHS cassettes, HD 2MB and 4MB MFD's.

The V95 meets all of the stringent requirements of the Verity Systems "Maintenance Engineering Conscious Program".

### Options:

- **Electric Eye:** Photosensor controls conveyor belt and field, saving power and extending unit life
- **Degausser Button:** Allows conveyor belt to run with degausser field off
- **Remote Control Socket:** Allows external control of conveyor belt and degauss fields.
- **Feed & Collection Hoppers:** Available for 5¼" Floppies or 3½" MFD's each hold 100 pieces
- **Support Table: Stable steel table:** Conveyor belt to floor Height 1067mm (42") adjustable +/- 25mm (1") *(Special heights available)*

### Features:

- Continuous Duty
- Powerful dual "V" configured coils
- Uniform – one pass operation
- Adjustable belt speed 0-10ips
- Designed for operator ease and safety

### Specification

- **Erasure Depth:** -80db Minimum  
All standard Oxide up to 850 Oe Media
- **Media:**
  - Cassettes:** S-VHS, VHS, Audio, Betacam Betamax, Compact Cassettes
  - Cartridges:** DC 300, 600, 2000, 3480, 3490, TK50, TK70
  - Diskettes:** 3½" MFD, 5¼" Floppy
- **Throughput:** 3½ Diskette – 10,000 per hour  
VHS Cassettes – 4,800 per hour
- **Duty Cycle:** Continuous
- **Operational Voltage:** 240/220 volts 50Hz  
208/220 volts 60Hz
- **Current Rating:** 9 amps typ 50Hz  
12 amps typ 60Hz
- **Dimensions:** Height: 19.0" (482mm),  
Width: 44.5" (1130mm)  
Depth: 20.5" (520mm)
- **Weight:** 193.60 lbs (88kg)
- **Belt Speed:** Variable 0 – 10ips
- **Belt Width:** 6" (152mm)
