* on suitable media

Direct To Disc Printing

In the Verity Systems Vision Direct-to-Disc printer you will discover some serious printing technology. With variable-sized droplet technology and a print head of 540 nozzles and 6 colours the Vision Printer cannot fail to impress. A cost effective solution with a resolution of up to 5760* dpi the printer is capable of producing discs in outstanding quality. The Vision Printer prints directly onto the surface of CDs and DVDs as well as up to A4 sized paper.

Easy To Use

The Direct-to-Disc printing creates professional looking discs in five simple steps. Instant conversion between CD/DVD printing and paper printing and Discus software makes the Vision Printer truly simple to use. Provided with a caddy for loading discs the printer holds discs in place and passes them through smoothly and accurately, resulting in clean, crisp images with no banding or streaking.

The Vision printer is MAC and PC compatible, and can be connected USB port at the front or back. Discus, the software provided to create CD/DVD images, is ideal for those wanting to produce professional quality CDs and DVDs quickly.

Easy to use graphics software Discus is also included, allowing users to create fabulous CD/DVD designs quickly and effortlessly.

Dedicated to affordability

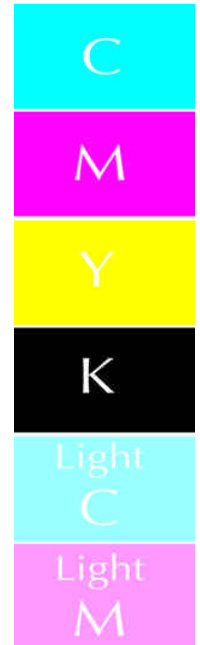

The Vision printer brings professional CD/DVD printing the cost-conscious user. With separate cartridges for each ink colour, you only need to replace the colour used. What's more, the Vision printer accepts standard Epson cartridges, which are widely available and reasonably priced.

Warranty

12 months back to base, all parts and labour included.
Extended warranties also available.
